Well it is the night before the Annual General Meeting and by now you should know the make-up of the new CCCV Committee for the 2019-2020 Club year.

For those of you that could not be at the AGM, you will be pleased to know that the Club is in good financial shape and no increase in fees was proposed. In preparing the AGM agenda I looked at the activities we had organised for 2019. Not counting the monthly General Meetings there were over twenty events, some major events organised for the year. Yes, it has been a busy year but it has also been a lot of fun. My highlight was the Motorclassica Weekend where we celebrated the Citroen 100 year anniversary. Ian Downie, our CCCV event organiser, organised and co-ordinated CCCV involvement in this fantastic event. We partnered with CCOCA and Citroen Australia to present the best of the best Citroens in Australia for the Citroen 100 years display inside Motorclassica.

On the first day of Motorclassica, we provided classic Citroens and their owners to meet with motoring journalists for interviews, photographs and videos to be used in magazines and websites etc. Called the "Heritage Drive", we travelled a few kilometres out of the city centre to the Boulevard at Yarra Bend where the journalists were able to briefly drive the classics themselves on a quiet road with the owners on board. The smiles on their faces after their drives said more than any words they could use to describe how much fun they had. They drove DS, CX, SM, 2CV and Traction. On the Saturday the display of Citroens in "Club Sandwich" outside the Exhibition Buildings showcased both CCCV and COCA Clubs to the motoring public. I was extremely proud to wear the CCCV President's badge during Motorclassica and congratulate every one that took part and contributed to this fantastic event.

## **Helen's Happy Holiday - Teddie's Terrific Tour - Dave's Dirty Deeds Done Dirt Cheap**

We are planning a pre-Citin touring trip to Cowra in New South Wales – leading up to CITIN 2020.

For those folks who would like to have a bit of fun and enjoyment before CITIN 2020, we are inviting you to join us on "Helen's Happy Holiday / Teddie's Terrific Tour / Dave's Dirty Deeds Done Dirt Cheap", to be held over 7 days and 6 nights.

We are starting out from Melbourne and finishing up at Cowra.

Each day is planned to be doing some interesting things and seeing new places, as well as cementing friendships over shared morning tea and lunch each day, pre-dinner drinks, and dinners each evening.

There is no actual cost involved to be part of the group, but some extra excursions along the way will attract a modest amount of money.

Interstate people from all states (as well as Victoria) are most welcome to join us.

We are suggesting accommodation, but you are welcome to arrange your own accommodation elsewhere – your choice.

We are mainly staying in caravan parks with cabins.

You will need to book your own accommodation - I have let places know that people may ring to book - *please mention* that you are part of the Citroen car group.

At the time of writing, accommodation was available at the suggested venues.

I ***strongly*** suggest that you book it ASAP.

We are hoping for/planning a dinner with a local car club near Eden, and also a BBQ dinner in Canberra, I will need firm numbers for both of these evenings.

***If you are interested in being part of the tour group, please contact the organising crew ASAP–***

# BRUTE FORCE

Wolfgang showing just what lengths you have to go to in order to remove and open the suspension spheres.

With his small trailer loaded with the equipment necessary to re-gas them, this has proven to be a very popular adjunct to the way in which the club serves its members.

- .1: Setting up to unscrew the sphere.
- 2: Using 2metre long chain wrench to unscrew brake accumulator.
- 3: Cleaning brake accumulator for new diaphragm.
- 4: This is what happens when the sphere losses gas and inverts the diaphragm.
- 5: Getting ready to re-gas a sphere.
- 6: Bruno explaining wheel rim offset.

At the October club night, BBQ dinner and AGM; Wolfgang won and was presented with the Alan Keye Service Award for 2019.

# Club Permit Scheme

For cars manufactured after 1948

## CPS RENEWAL

The car owner completes and provides to CCCV's CPS Secretary (see above for contact details) a **Club Permit Renewal** (revised edition 31/1/15). See note below.

The CPS Secretary will sign and hand back to the owner the above renewal once he has ensured that the owner is a CCCV financial member.

The car owner should keep track of next renewal due date as a Renewal Application will not be accepted by VicRoads after 90 days of expiry of previous Club Permit. In that case, the car will need to be processed as a new application.

## CPS NEW APPLICATION

1. The car owner completes and provide to CPS Secretary a **Club Permit Application** along with an **Eligibility and Standards Declaration for Club Permit Vehicles** (new form), a **Certificate of Roadworthiness** and **Proof of Ownership**. (See downloadable form links at the bottom of the page).

2. If the car has modifications beyond those normally allowed under **VSI 33** (Guidelines for Modifications to Vehicles operated under Victoria's CPS) (revised), **VSI 8** (Guide to Modifications for Motor Vehicles) and **Schedule 2** – Road Safety (Vehicles) Regulations 2009 (vehicle standards as at manufacture date), then the car owner must also provide to CPS Secretary a **Vehicle Assessment Signatory Scheme (VASS) approval certificate**.

3. Non-Australian manufactured cars after December 1968 with no previous Australian registration history must have a VASS approval certificate, regardless of modifications.

4. As proof of ownership the car owner must provide **dated digital images** to CPS Secretary. These must cover, as a minimum, the front, driver's side, rear, driving position (side on with driver door open) and any identifiers such as chassis number and engine number

5. On completion of registration process, car owner advises CPS Secretary of registration number and expiry date for entry into the Club's CPS Register, as required by Vicroads.

See also [the VicRoads CPS changes from 31 Jan 2015](#)

6. Ensure that during the permit issuing procedure at Vicroads the correct CCCV authorising signatures are used and that the permit is assigned to the correct club.

**Note:** Please contact our CPS Secretaries before sending papers for signature to avoid the possibility of them sitting in the club's PO box for several weeks. (A stamped, self-addressed envelope would be appreciated)

Postal Address: CCCV-CPS c/- PO Box 122 Nunawading Victoria 3131

**For pre-1949 vehicles, CCCV will conduct its own safety inspection (which may be a certificate of roadworthiness or a club safety inspection based on VicRoads' guidelines).**

## IMPORTANT ADVICE

It is vital that CPS plated car owners maintain their financial membership with the club.

If memberships are not renewed on time the CPS permit is immediately invalid.

It has insurance implications and potentially legal consequences.

The same applies if you use your car whilst the permit has expired.

## New Book Release: “What A Ride – Growing Up With Citroën in North America”

Throughout his life Richard Bonfond has been constantly surrounded by Citroëns. From his childhood days observing his father, Albert Bonfond, working in his automobile repair shop in Belgium to the family moving to the United States in 1956 where Albert went to work for Citroën Cars Corporation, and Richard later followed suit, ultimately working for Citroën both in the United States and in Europe.

In his new book, “What a Ride!”, Richard tells not just about growing up around Citroën, he also provides a first hand account of Citroën’s history in North America, something that has never been thoroughly documented to this extent.

Richard begins the book with a history of Andre Citroën, detailing with things you probably didn’t know about the man. It’s a refreshing primer to understand the basis of the Citroën company and to dive further into the book.

Writing about Citroën’s history in North America, Richard discloses a treasure trove of information, things like; US technical research for Citroën Cars Corporation was run by Arthur Lowenstein and Jean Ostheimer, the man who was responsible for putting Andre Citroën into liquidation in 1934! And at the Citroën display at LA Auto Show, DS and ID models were configured to operate the hydraulic systems without running the engines inside the auditorium.

Richard has also provided great reference material, such as the excellent summation of the American dealer network at the beginning of chapter 4.

There are so many tidbits, such as Richard explaining why only American 2CVs had horizontal chevrons mounted where the turn signals would normally be found on the C pillars of European 2CVs and that Meharis, when they arrived in the US, were far from complete vehicles. Each came with a box attached the vehicle jammed with interior and body parts requiring assembly prior to sale!

This large format, hardcover, 152-page book includes some never-before-seen pictures, and letters pertaining to Citroën’s history on the North American continent, from its infancy to its ultimate demise.

The book is an incredible read – (and a great Christmas gift) – especially for Citroën owners in the USA and Canada as it offers

## Traction Avant Project Car Wanted

09/19

I am on the lookout for a project car, specifically a traction (Light 15, Big 15), or a 2CV. Why I say "project car" is because I am not fussed if its running, or has a bit of rust, as long as it is complete.

I should also mention I am living in SA, but am willing to arrange transport at my cost. (I was once a member of the CCCV when I had my first car, a 1951 Light 15, in 1973.

I look forward to hearing from you.
